## "BIG FOUR" SLATE IS ELECTED AT G. O. P. STATE CONVENTION

Senators Watson and New, Gov.  
Goodrich and Former Senator  
Beveridge Are Chosen Today

TO BE DELEGATES-AT-LARGE

First Gun For Indiana Delegation  
Fired When Mayor Jewett Moves  
For Wood Instructions

BATTLE OF ORATORY OPENS

Clen Miller Moves Ratification of  
Watson Nomination—Platform  
Pledges Tax Law Change

(By United Press.)

Indianapolis, Ind., May 13.—The first gun in the battle for Indiana's delegates to the national republican convention was fired by Mayor Charles Jewett of Indianapolis at the state convention here today when he moved that the state's four delegates-at-large be instructed for Major General Leonard Wood.

This started a battle of oratory. Just prior to this the convention had nominated Senators Watson and New, Governor Goodrich and Former Senator Beveridge to compromise the "Big Four." It also had ratified the primary choice of Senator Charles Carlisle of South Bend, Mrs. Joseph B. Keating of Indianapolis, W. H. Gaines of Evansville.

All the nominations were made by Congressman Will Wood of the tenth congressional district.

Clen Miller of Rush county moved that the convention ratify the primary senatorial choice of Senator Watson and Edward Toner who ran against Warren McCray for the governorship, moved for the ratification of the latter. Both motions were carried unanimously.

The opening of the convention was delayed more than an hour by the second meeting of the committee on resolutions which drew up the party platform. The committee omitted the plank endorsing the administration of Governor Goodrich and the activities of the Indiana delegation to congress.

The platform planks were drawn up without a hitch.

A fight developed in the committee meeting last night when the question of the state tax law came up. The committee first rejected the plank introduced by the McCray men referring to the state tax law. This was one of the issues on which McCray obtained a majority in the governorship race. Following mention of the fact the plank was adopted immediately the committee saying: "We commend the last general assembly for its action in revising the tax law of Indiana. We virtually commend it and we pledge ourselves

## ARRIVES IN PARIS SAFELY

Mrs. J. M. Kiplinger Writes She Has  
Joined Her Husband

Mrs. John H. Kiplinger and two sons landed safely in France and is now in Paris, where she joined her husband, Captain John H. Kiplinger, according to a letter which has been received by a friend here.

Mrs. Kiplinger did not mention whether Capt. Kiplinger had to return to Washington to get his discharge before he could accept the position as legal representative of the financial section of the American reparation commission. It was reported here last week that Capt. and Mrs. Kiplinger passed in mid-ocean, while Capt. Kiplinger was enroute to America, but this was untrue, according to the letter from Mrs. Kiplinger. While here last week Senator Watson said Capt. Kiplinger would have to return to America to be discharged.

## BULLETIN.

(By United Press.)

Indianapolis, Ind., May 13.—Indiana's four delegates-at-large to the republican national convention were instructed to vote for Major General Leonard Wood "so long as he has a fair and reasonable chance to be nominated," by the state convention in session here today. The vote was 753 in favor of instruction and 745 against.

## SIXTH DELEGATES ARE UNINSTRUCTED

One of Eight Congressional Districts  
in State Free to Vote For Any  
Candidate

ORGANIZATION IS PERFECTED

Clen Miller is Elected Alternate Delegate  
to National Convention  
—Woman is Honored

Fon Riggs, republican county chairman, was elected contingent elector, and Clen Miller, delegate to the republican state convention from Rushville city, was elected alternate delegate to the national convention at the organization meeting of the state convention delegates of the 6th congressional district in Indianapolis last night.

Early in the pre-convention campaign, Mr. Riggs was mentioned for one of the two delegates to the national convention from this district, but he did not make any effort to be elected. Harry Moberly of Shelbyville and Walter Bridges of Greentfield, who was a candidate for district chairman, were named as national delegates. Mrs. John Goodwin of Brookville is the other alternate, in addition to Mr. Miller.

The district selected Lee B. Nussbaum of Richmond as presidential elector, I. M. Bridgeman of Brookville was the district representative on the resolutions committee and J. L. Kennedy of Connersville the member of the rules committee. A. R. Thompson of Newcastle was elected to represent the district on the credentials committee.

This district was one of the eight in the state which did not instruct its delegates to the national convention. The Wood forces, whose candidate carried ten of the thirteen districts in Indiana, conducted a campaign for an instructed delegation in every one of the eight districts, but were successful in only three.

Scores of Rush county republicans attended the convention yesterday principally for the purpose of hearing Senator James E. Watson deliver the keynote address. They declared that he made a masterful speech regarding the failures of the present national administration and the aims of the republican party.

Rush county friends of Senator Watson say that he received a wonderful ovation when he arose to speak yesterday morning; that the delegates and visitors at the convention arose as one and cheered and applauded him for several minutes. His speech was frequently interrupted by applause and cheers.

A resolution was introduced at the meeting of the delegates of the sixth district, calling on the two national convention delegates elected to vote for Major General Leonard Wood for the republican nomination for president "first, last and all the time."

This resolution for a delegation bound by iron-clad instructions for General Wood was lost by a majority of about twenty votes. A few more than sixty of the delegates voted against the resolution and a few more than forty voted for it. There are one hundred and five state convention delegates in the sixth district. The actual vote was 613 to 433.

## TO FIGHT FOR BONUS BILL

American Legion Executive Committee  
Going to Washington

(By United Press.)

Indianapolis, Ind., May 13.—The executive committee of the American Legion will go to Washington next week in an effort to force through congress a soldier's bonus bill before congress recesses, it was learned today at Legion headquarters.

The plans are for the committee which is composed of representatives from all states, to continue in session until the measure is passed or until congress recesses.

If the bill fails, delegates will be sent to each national convention to obtain approval of the bonus measure in the party platforms.

## PEA SURRENDERS TO AUTHORITIES

Prisoner Who Escaped From Sheriff  
Jones Yesterday Gives Himself  
Up and is in Jail

COURSE WHICH HE FOLLOWED

Pea Says He Was Frightened or He  
Would Have Stopped When  
Sheriff Fired First Shot

Lawrence Pea, the prisoner who made a getaway yesterday morning at the entrance of the jail, after being taken into custody by Sheriff E. M. Jones, ran out into the country, but toward evening wandered back and gave himself up to the officers, and today was in jail awaiting to be arraigned on the grand larceny charge for which he was arrested.

Pea was arrested yesterday morning and was taken to the jail in an automobile, and when the automobile stopped at the jail entrance, he made a dash for liberty, six shot fired by Sheriff Jones failing to halt him.

Officers pursued him in the alleys but he was not found, and it was the general impression among the officers that he would not go far, so the search was abandoned soon after he made his escape.

Pea stated today that he was frightened, or else he would have stopped when the sheriff first fired. He said that the shots came dangerously close.

After evading the officers, Pea went south on the Big Four tracks and wandered southwest until he came to the neighborhood of the Webb school building. By this time he was drenched from the steady downpour and was hungry.

It was at this place that he decided to come back and give himself up. Chase Ruddell was passing in horse and buggy, and he rode back to Rushville, going to his home in West Market Street.

Pea then called up his cousin Charley Pea, a policeman, and asked him what he should do. The policeman went after him, and convinced him that the best thing to do would be to go to jail, and about four o'clock Pea was placed in jail.

Judge Sparks was in Indianapolis today, so Pea will not be arraigned until he returns. The charge is that of grand larceny, which alleges that he stole 25 bushels of corn from the Theodore Reed farm north of this city last Saturday night.

## REBELS AND FEDERALS FIGHT

Advices Say Carranza Refused Safe  
Conduct to Vera Cruz.

(By United Press.)

Vera Cruz, Mexico, May 13.—The fight between the Carranza forces and rebel troops was underway at Hacienda Tamariz, according to advices received here today.

President Carranza, the advices said, refused to surrender despite the fact that the revolutionists offered safe conduct to Vera Cruz.

The battle was described as especially violent. It was stated that about 25,000 men were engaged. Carranza has about 6,000 men. The revolutionists were confident of victory.

## RUSHVILLE WINS A DOUBLE VICTORY

Awarded Cup For Best Percentage  
in Attendance and Elects Judge  
Sparks to Commandery Office

LOCAL MAN IS GRAND WARDER

Chosen For State Knights Templar  
Office and Will Advance Each  
Year—Gets 96 Votes

Judge Will M. Sparks of this city was elected grand warder of the grand commandery of Indiana, Knights Templar, in Indianapolis this morning, and Rushville commandery No. 49 was awarded the cup for the largest percent of the membership present at the time for the annual parade in connection with the state convocation yesterday afternoon. The parade was called off due to the rain but the cup was awarded nevertheless.

Rushville Knights returning this afternoon from the convocation, reported the double victory which Rushville commandery won: The position of grand warder is the only elective office, the other officers advancing one office each year until they become grand commander, which position Judge Sparks will eventually fill. Judge Sparks received ninety-six votes, four more than the number required to elect him. There were one hundred and eighty-two votes in the convocation, the officers and past commanders of all the commanderies in the state being entitled to vote.

Will W. Suckow of the Franklin commandery was an avowed candidate for the office and has been conducting a campaign for it. He received sixty-five votes. Judge Sparks did not campaign for the position but consented to take it if elected, a few weeks ago. It was known here that the name of Judge Sparks would be presented by Rushville commandery, but no extensive effort was made in his behalf. It is said, however, that many influential Knights from over the state favored him for the place and that it was through their influence in a large measure that he was elected. They believed that Judge Sparks' devotion to Knights Templar fitted him for a state office.

Judge Sparks is the ranking prelate in the state and is past commander of Rushville commandery. Due to the fact that he had the best record of any prelate in Indiana, he was selected to help give the degree work at the state commandery meeting last night.

Rushville Knights were elated over the success they had because they have been working to the end that they capture the cup at the convocation this year. They had engaged the Indianapolis News' newsboys to lead their commandery in the parade yesterday afternoon, but unfortunately they did not get a chance to parade.

The vote was a wonderful tribute to Judge Sparks because it is the first time in the history of the grand commandery that the grand warder was elected on the first ballot.

The double victory by Rushville commandery was regarded as a good advertisement for the city of Rushville and Rush county as well as the local commandery because it brought the home of the commandery into unusual prominence—the election of a grand warder on the first ballot, which is without precedent, and the winning of the attendance cup as well.

This is the first time that Rushville commandery ever was represented among the state commandery officers.

## CONVENTION POSTPONED.

Paris, May 13.—A News Agency dispatch from Brussels today confirmed the report that the Spa convention between the allies and German representatives had been postponed from May 25 until after the general election, probably June 20.

## RAIL ACCIDENT FATAL

Laporte, Ind., May 13.—John Rector, age fifty, of Tracy, died Wednesday as a result of being hit by a Baltimore & Ohio train Monday.

## FIELD EXAMINER IS HERE

J. W. Winter Will be Joined by Horatio  
Harryman Next Week

Jacob H. Winter of Indianapolis, a field examiner for the state board of accountants, arrived here today to inspect the records of all the county officers and the twelve township trustees of the county. He will be joined next week by Horatio Harryman, also of Indianapolis, who will assist him in the work.

The two examiners will devote themselves exclusively to the year 1919, the records for all years previous to last year having been examined. The state board officials are the first to come here in several months.

## LEAP FROM CAR SAVES HIS LIFE

Oliver Megee Jumps Barely in Time  
When His Car Strikes Tree Near  
Cemetery Bridge.

AUTO DOWN AN EMBANKMENT

Due to Driver's Presence of Mind,  
He Escapes With Bruised Leg —  
When Car Falls on Him.

Oliver Megee, living at 320 North Perkins street, narrowly escaped serious injury shortly after one o'clock this afternoon, when his automobile driven by himself, struck a tree near the side of the brick pavement a short distance this side of the cemetery bridge, causing the machine to be thrown out in the ditch, upside down.

Mr. Megee jumped as the machine went over, and this fact alone probably saved his life, but as it was he received a badly bruised leg, being caught under the machine.

Mr. Megee was the only occupant of the car, which is considered another fortunate thing. He was driving at a moderate rate of speed, going east, when he said something got wrong with the steering wheel, causing him to strike the tree and turn over in the ditch, which is several feet below the road.

The machine was turned completely upside down, breaking the top, windshield, the two front wheels, and several other parts. It is estimated that the damage will amount to \$400, as the machine was a new Oldsmobile touring car.

Mr. Megee was given medical aid, and one of his legs was badly bruised below the knee, but no bones were broken.

## SEEK PLEDGES OF RUSHVILLE PEOPLE

Representatives of Vote Register  
Corporation Anxious to Know  
What City Will Do

MUST ANSWER KNOX FRIDAY

Representatives of the Cummins Vote Register Corporation were attempting today to find how many Rushville people were willing to subscribe for stock in the concern before they gave a definite answer tomorrow night to citizens of Knox, Ind., who have made them a very flattering offer to locate the factory there.

The board of directors has not met, but will take up the question of a location tomorrow evening at Knox. Before answering Knox, some members of the board were anxious to know what Rushville was willing to do. Business men and others were solicited and requested to obligate themselves to take stock in case the factory located in Rushville. Otherwise, they were not to be obligated to invest money in the factory.

It is reported that a number of business men consented to this sort of an agreement to induce the factory to come here.

## SUGAR SITUATION WILL BE PROBED

Wholesalers are Allowed One Cent  
Profit And Dealers Two Cents on  
The Pound

MARGIN IS BEING VIOLATED

Rushville Dealers Differ in Price  
From 27 to 35 Cents a Pound And  
Consumers Wonder Why

District attorneys throughout the United States have received telegrams from the Department of Justice reiterating the department's policy of holding the margin of profits on sugar sales to one cent for wholesalers and two cents for the retailers.

Local dealers today did not seem to regard seriously the action of the Department of Justice, because of the fact that it is a hard matter to figure out just what is the sugar cost when bought by the wholesaler.

It is pointed out that most sugar changes hands many times before it reaches the dealer and the exact cost in most cases could not be determined, and the opinion prevails that the investigation will not amount to much.

This margin or profit was fixed by the sugar equalization board more than a year ago, but Assistant Attorney General Garvan said misunderstandings had arisen among fair price committees as to its application at the present time.

To clear up the tangle district attorneys were instructed to rigidly enforce the ruling with respect to the margin of profits and to prosecute firms and individuals taking more than that amount per pound.

It is on this latter basis that dealers base their opinion that the enforcement will be difficult. Rushville dealers however have a varied margin for selling sugar which puzzles the consumer. How one dealer can sell sugar for 27 cents a pound, and another dealer for 35 cents a pound, is a mystery.

People of Rushville no doubt would be glad if the district attorneys would get busy and find out who is making the big profits, but as it has been the case in many instances before, the investigations usually amount to a big expense, with no results.

Some Rushville dealers were selling sugar today as low as 27 cents a pound, and in other local stores the dealers were asking 35 cents a pound. The 35 cent sugar probably cost more than the 27 cent sugar, to the dealer but the point is that someone is no doubt making a good profit on the same quality of sugar.

## HOME SERVICE DRIVE IS FURTHER DELAYED

Elks Committee is Called to Meet  
Again Friday Night Following  
Failure Last Night

MAY ERECT A THERMOMETER

The opening of the Salvation Army Home Service campaign was further delayed when the Elks committee appointed to take charge, failed to meet last night. Another meeting has been called for Friday night at seven-fifteen o'clock at the Elks club and it is urged that every member of the committee be present so that the enrollment campaign, which should have begun Monday, may get under way.

Only three members of the committee were present last night, due to the fact that other things interfered. Several of the committeemen were in Indianapolis at the republican state convention.

Capt. J. A. Tench of the Salvation Army was distributing posters and other advertising matter this morning. He said there was some talk of erecting a large thermometer on the court house lawn to show daily the gain made in enrollments.

### Amusements

#### Mary MacLaren at Mystic

Mary MacLaren, Universal star, who is to appear at the Mystic Theatre tomorrow in her newest photodrama, "The Road to Divorce," is known as the American Beauty of the Screen.

Few young women are blessed with the perfect features that distinguish Miss MacLaren. Her head and bust have been modeled in clay by the California sculptor, Frederick Schmolli, while the New York portrait painter, Edward Scholl, has transferred her profile to many a canvas.

Yet Miss MacLaren does not depend on her beauty for success on the screen. She often disguises her attractive features for the more faithful portrayal of a role. In "The Unpainted Woman" she played the role of a farmer's wife; in "The Pointing Finger" she tried to appear as homely as it was possible, and in "Rouge and Riches" she was cast as a chorus girl.

In her newest production, "The Road to Divorce," her beauty is seen to its full advantage when she appears as a bride. As the story advances, her beauty seemingly wanes and she grows careless and slovenly, paying more attention to her household duties than to her personal adornment.

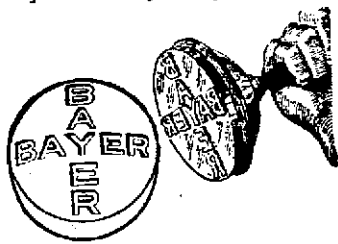

"The Road to Divorce" deals with a theme that is of interest to every American home, and bears a message which every man and woman will do well to heed.

#### COMPROMISE REACHED

Washington, May 13—Compromise has been reached between the Senate and the House conference committee on the general retiring age under the civil service pension law. It is to be seventy years. City and rural letter carriers, postoffice clerks, and mechanics will be let out of service at 65 years and railway postal clerks at 62 years. It is thought this arrangement will be agreed to by both houses, and the bill signed by the President early this month.

### "BAYER CROSS" ON GENUINE ASPIRIN

Safe, proper directions in each "Bayer" package

The "Bayer Cross" stamped on tablets means you are getting true "Bayer Tablets of Aspirin" proved safe by millions of people—the genuine Aspirin prescribed by physicians for over eighteen years. In every handy "Bayer" package are proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Rheumatism, Lumbago, Sciatica, Neuritis and for Pain generally. Tin boxes of 12 tablets, cost only a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

### GOOD EYESIGHT IS INEXPENSIVE

The money and time devoted to having your eyes examined regularly and your glasses kept in adjustment will pay liberal dividends in better eyesight, greater efficiency, greater earning power and freedom from the ills and discomforts that make life miserable when you need a change of lenses. Have us examine your eyes regularly.

### FRUIT PLANS FOR BEGINNERS

Farmers' Bulletin 1001 Contains Information in Concise Form That Will Assist.

(Prepared by the United States Department of Agriculture.)

Well-ripened fruit is healthful. It is also a valuable food. It should form a part of every meal fresh when possible, or dried, canned, or otherwise preserved.

Home-grown fruit is desirable—Because it reaches the family fresh and in the best possible condition.

Because the family has fruit of which it would often be deprived if it had to be purchased.

Because, if the proper varieties be selected, a continuous supply of fruit of superior quality may be secured, regardless of market prices.

Because any surplus may be sold without difficulty, or may be canned.

Peach Trees Heeled In—They May Be Held in Good Condition in This Manner for Some Time, but Should Be Planted as Soon as Possible.

evaporated, or otherwise conserved for use when fresh fruit is not available.

Because the care of the home fruit garden provides for spare time congenial and profitable occupation which is in reality recreation for those who enjoy seeing things grow.

Information that will be of practical help to the beginner in fruit growing is furnished in concise form in Farmers' Bulletin 1001, "Growing Fruit for Home Use," recently issued by the United States department of agriculture.

This bulletin, which will be sent free on request, deals with the widely grown temperate-climate fruits, such as the apple, pear, peach, and plum. Lists of desirable varieties of these fruits are given for the different parts of the country.

Because of the number of fruits considered, and the territory covered, cultural directions are necessarily brief, but they cover the most important general points.

#### NOTICE

Arlington Encampment No. 380 will not go to Knightstown Thursday night, May 13, as planned but will go Wednesday night May 19th. 5141.

## SEED CORN TEST NOW COMPLETED

Total of 14,710 Ears Went Through The Test at The County Agents' Office

### 4528 EARS FOUND UNFIT

This Amount Alone Would Have Planted 400 Acres at a Total Loss For Rush County Farmers

The final batch of seed corn was taken off test at the county testing plant in the county agent's office early this week and the results of the work were announced this morning by D. D. Ball county agent.

Since March 10th when the work started a total of 14,710 ears have been run through the test and out of this number 2,955 ears were discarded because of disease and 1,573 ears because they were found to be partially or entirely dead.

The value of the testing done by the plant is brought out when it is considered that the 4,528 ears which were found unfit for seed would have been enough to plant over 400 acres of ground, which if planted would have meant a virtual waste of this amount of corn ground. Out of the number of ears put on test enough seed of 100% germination and strong vitality was picked out to plant about 1400 acres.

Hundreds of farmers visited the tester during the time it was in operation and much interest was shown in the work. Several farmers after seeing the work at the central plant tested their own corn using the same method.

In order to check up on the influence of the testing on yield a few plots will be planted in the county which will compare tested seed with untested seed in yield and some interesting data is expected to be gathered from these plots this fall. A few plots in which diseased ears will be planted alongside healthy seed will also be put out to demonstrate how diseased seed reduces

### SHE FEELS FINE NOW

Aches and pains often indicate kidneys out of order. Your kidneys surely need help—and quickly—when your hands or feet are swollen and you feel dull and sluggish lose your appetite and your energy and there is a puffy look under the eyes. Mrs. L. Gibson, 12th and Edison St., Ladunja, Colo., writes: "My kidneys were giving me a great deal of trouble for some time. I took Foley Kidney Pills and they helped me right away. I feel fine now." F. B. Johnson.—(Adv't.)

## WILL CLEAR UP 3 POINTS

Prime Minister of Germany Will Lay All Cards on Table

Berlin, May 13—Germany desires to lay all her cards openly on the table at the Spa convention May 25, Dr. Adolph Koester, prime minister stated in an interview today.

The German government hopes to clear up the following points, Koester said:

1—German financial situation and food and raw material problem.

2—Germany's exact economical condition.

3—Necessity for securities and internal peace.

the yield.

In connection with the disease demonstration plots lime will be used on part of the area in order to determine whether lime added to the soil will correct the soil conditions which seemingly encourage the development of corn diseases.

### SPORTSMEN TO MEET

The Fisher and Game Protective association of this county will hold a meeting tonight in the assembly room of the court house. All members of the organization are urged to be present.

## Castor Oil Now Made Tasteless

Kellogg's Tasteless Castor Oil is Sold by All Good Druggists

The chemists of Spencer Kellogg & Sons, Inc., one of the world's largest manufacturers of castor oil, have perfected a remarkable new process by which all taste is absolutely removed from this good old family remedy. Nothing is removed except the taste. Strength and purity are absolutely unchanged. You don't have to shudder when you take Kellogg's Tasteless Castor Oil. Doctors have always recommended castor oil, but everyone has dreaded taking it. Mothers can now give children castor oil without their even knowing what they are taking. Grown-ups will also appreciate this new form of the good old remedy. Kellogg's Tasteless Castor Oil is now sold by all good druggists. Do not accept substitutes if you want a really tasteless castor oil. Two sizes, 35c and 65c. (Adv't.)

## TO INVESTIGATE VALUE OF BONDS

Bill Provides Appointment of Committee to Inquire Into Depreciation of Liberty Bonds

MAGEE AUTHOR OF THE BILL

Introduce Measure Upon The Demands of His Home People That Congress Take Notice

Washington, May 13.—Appointment of a select committee to inquire into the depreciation of the market value of Liberty bonds is provided in a bill introduced in the House by Representative Walter W. Magee, Republican of New York.

Under the bill the committee would consist of seven members, four Republicans and three Democrats, and report to the House at the earliest possible moment its recommendation as to what legislation if any Congress should enact for the purpose of increasing the value of Liberty bonds.

In explanation Magee says:

"I introduced the resolution upon demands from my home people that Congress sit up and take notice of the great depreciation in the market value of Liberty bonds. The following is a sample communication from one of my most patriotic constituents:

"If there is any one thing in my opinion that is doing much to unsettle the United States Government it is the attitude of the Government in permitting by any actual depreciation the value of these bonds. For myself, I feel mighty touchy on this subject. In order to keep up with the crowd and do what I thought was right I purchased about \$70,000 worth of these bonds, and last week I sold the last of them and my aggregate penalty for loyalty amounted to \$7,300."

"The subject matter within the scope of the resolution would include several propositions, such as exemption from taxation, increase in rate of interest, real causes of depreciation, fixed policy as to further bond issues and protection of multitude of small patriotic holders."

"I do not know what should be done, but I feel that there is a solemn obligation upon the Congress which authorized the issue of billions of dollars worth of these bonds, which were sold to thousands upon thousands of patriotic purchasers at great sacrifices, to find out whether anything can be done to appreciate their value, and, if so, to apply the remedy. This can be promptly and effectively done through a committee appointed to inquire into the matter, and obtain the views of financial experts who ought to know what legislation, if any, the Congress should enact having for its purpose the appreciation of the value of such bonds."

"The millions of holders of these war securities are justly entitled to relief and I hope that the Congress will meet its responsibility in the premises squarely and promptly."

### EUGENE V. DEBS NAMED

Socialists Name For President Man Who Is Serving Prison Term.

New York, May 13.—Eugene V. Debs, who is now serving a sentence for the violation of the espionage act in the Atlantic federal prison, today was nominated the presidential candidate of the socialist party.

The vote of the convention was unanimous.

Edward Henry of Indianapolis made the nominating speech. The nominating committee also decided upon Seymour Stedman of Chicago as the vice-presidential nominee.

### NEVER SAW ANYTHING BETTER

For colds that "hang on" and for lingering coughs that follow the "flu," and there is one safe family cough medicine sold from the Atlantic to the Pacific. Mrs. A. B. Griffith, Box 154, Andrews, Ind., writes: "Last winter my family all had the 'flu.' I tried Foley's Honey and Tar and never saw anything better. From now on I will not be without it in the house. Don't let children suffer from croup or whooping cough when this reliable remedy can be so easily procured. F. B. Johnson & Co., (Adv.)"

## LAND SALES SHOW SLUMP IN APRIL

Last Half of Month Transfers Amount to Less Than \$115,000 With One Big Sale

ONE FARM BRINGS \$42,000

Albert Winship Pays \$225 For 188 Acre Farm Owned by John C. Frazier South of Here

Real estate transfers in Rush county slackened up during the last two weeks in April, both in the number of transactions and the amount in money, the sales for this period amounting to only \$114,930.

One large farm sale consisting of 188 acres was sold by John C. Frazier to Albert Winship for the consideration of \$225 an acre or a total of \$42,412.50. This was the largest single sale and the remainder were small sales.

The transfers as recorded are as follows:

Walter G. Carson and wife to Clara G. Breckenridge, 20 acres in section 17 Union Township, Rush County, \$1.00.

Anna E. Brown to Robert W. and Nathan M. Brown, undivided 1/5 interest in 41 acres in Anderson township, \$1600.

Annie E. Brown to Emma Z. Brown, quit claim to an undivided one-fourth interest in real estate in Anderson township and a one-half interest in lot 2 in J. P. Root's addition to Milroy, \$1600.

Emma Z. Brown to Robert W. and Nathan M. Brown undivided 1/5 interest in 41 acres in Anderson twp., \$1600.

Alice J. and John McCannon to John and Ruth Seright, lot 3 in Earl City and a parcel of ground in Decatur county, \$500.

James E. and Fannie Gatewood to Ernest M. and Ona M. Kastor, two acres in Jackson twp., \$700.

Howard H. and Elizabeth M. Matthews to Lena G. Baker, lot 2 in the Original Plat of Manila and two other lots adjacent to same, \$500.

John C. and Mary M. Frazier to Albert L. Winship, 188 1/2 acres in Rushville awp., \$42,412.50.

John A. and Cora A. Hoff to Talmu A. Hoff, 7 30/100 acres in Walker township, \$2275.

Ella and John Siler to Melvin Steffey lot 36 in Charles Henley's second addition to Carthage, \$1.

Charlotte Morris, et al, to Andrew and Dessie Moore, south half of lot 19 in L. Sextons' Heirs second addition to Rushville, \$1600.

Charles J. Brooks, executor will of Charles W. Stephens, to John C. Walker, part of east half of lot 78 in the original plat of Rushville, \$2400.

Frank and Adelia Baker to Laura Niles, 4 acres in Ripley township, except a lot 20 feet by 150 feet out of same, \$2500.

Charles and Stella M. Eddy to George and Cora Stout, lots 46, 47, 48, 49 in Berkeley park addition to Rushville, \$1.00 etc.

Maggie H. L. and William Felts to Charles and Stella M. Eddy, lot 224 in Payne, et al, trustees' addition to Rushville, \$900.

Arvel R. and Alice C. Herkless to Rolla Wilder, quit claim to 1 acre in Walker township, \$21.15 to quiet title.

Otto H. and Lola Dewitt to J. Earl Norris, 80 acres in Ripley twp., \$9200.

Frances Moorman to Matilda J. Kinney part of lot 6 in L. Sextons' Heirs First Addition to Rushville, \$1300.

Guy and Wilma Jacobs to John Sterley lot 4 in Mary C. and Gilbert Henry's First addition to Mays, Ind., \$3500.

Anna L. Bohannon, commissioner, to Edna May Safewright, lot 25 in Berkeley Park addition to Rushville, \$50.

Anna L. Bohannon, commissioner to James M. and Rosa A. McFarridge, lot 230 in Payne, et al, trustees' addition to Rushville, \$500.

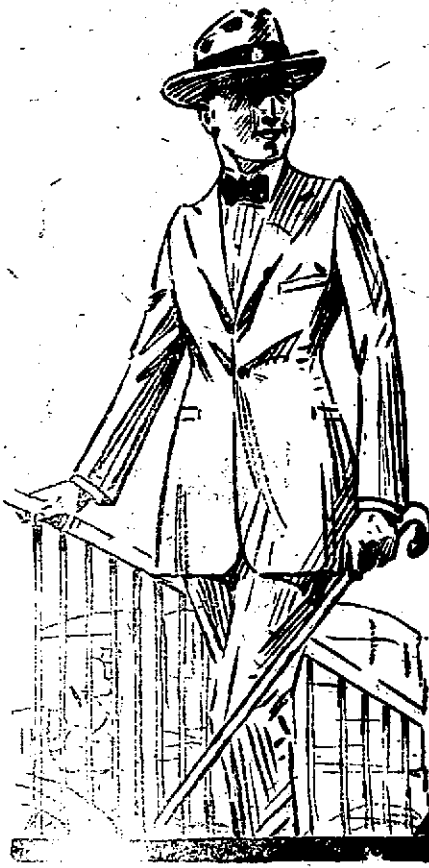

Walter B. Hill, trustee, to William T. Paris, lot 70 in Clark and Henley's addition to Carthage, \$100.

Nathan R. and Eva Farlow to Christopher F. Cline, part of lot 3 in J. W. Green's first addition to Burlington (now Arlington) \$1 etc.

John A. and Nelle L. Titsworth to Ernest R. Titsworth undivided 1/2 of 195 1/2 acres in Noble township, \$21,000.

Elizabeth Pearsey to L. Mahan and Frank Pearsey, lot 25 in David Graham's addition to Rushville and other real estate in the same addition, \$500.

Jennie B. Bigham to Henry Price Giles, et ux, north half of lot 20 in

Catarrh Can Be Cured

Skilled Specialist Coming to This City. Will Examine and Advise Free of Charge. Call or Write

The Indiana Catarrh Institute, 1436 North Illinois St., Indianapolis, Ind., an old established institution, devoted exclusively to the treatment of chronic catarrh and its complications, is sending its MEDICAL DIRECTOR, who is a skilled specialist of seventeen years experience with this disease, to this city to examine and advise all catarrh sufferers without cost or obligation of any kind whatever.

He will tell you all about your condition, your chances of a cure and demonstrate to you an entirely NEW and DIFFERENT way of dealing with this very dangerous and troublesome disease. He will show you how easy, pleasant and cheap it is to get cured with this thoroughly tested and proven home treatment. At the same time he will show you what this method of treatment has done for many of your neighbors and friends and will give you local references of home people who have been cured of terrible conditions by this treatment, with whom you are invited to talk to about it.

You will also be given an opportunity to try this treatment without cost if it fails to benefit you.

This method of treatment has cured the worst cases of CATARRH of the NOSE; THROAT; BRONCHIAL TUBES; ASTHMA; HAY FEVER; CATARRHIAL DEAFNESS; CESSSES in the HEAD; DRIPPING HEAD NOISES; DIZZINESS; ABMUCUS in the THROAT and NOSE; Constant HAWKING and SPITTING; CLOGGED up HEAD and NOSTRILS; Frequent Fresh COUGHS; CHRONIC COUGHS; TIGHT SORE LUNGS and SHORTNESS of BREATH; CATARRHIAL INDIGESTION in STOMACH and BOWELS; CONSTIPATION and all old "RUN DOWN," "DEAD TIRED" worn out conditions due to chronic catarrh.

ASTHMA and HAY FEVER cases are especially benefited. No diseases other than catarrh are considered by this Institute. The spring and summer months are, by far, the best months of the year to successfully treat these conditions.

So you are urged to act at once if you would save time and expense. Don't waste time and money on methods that do not cure. We can show you hundreds of letters like the one below:

Catarrh for Twenty Years. Feels Better Than for Twenty Years.

Rushville, Ind., Feb. 6, 1920. Indiana Catarrh Institute, Indianapolis, Ind.

Dear Doctor:

I will tell you what I think of your method of treatment and how I am getting along.

In my own case, I can say that the method of treatment is all right. I have suffered with catarrh for the last twenty years until now I am not suffering any from its effects and am feeling better than I have in twenty years.

Yours respectfully, GUS NURSE.

Sealan Hotel. Can Now Hear and Smell. Rushville, Ind., Feb. 9, 1920.

Indiana Catarrh Institute, Indianapolis, Ind.

Dear Doctor:

I am much better in many ways. Hearing was bad for four or five years. It is much better now. I had not been able to smell anything for six or eight years but that is also improving. I was catching fresh cold frequently, but that has ceased. Indigestion was bad, but after five weeks' treatment it is very much improved. I am much stronger in every way. I can truthfully say your method of treating catarrh in my case is fine. Can say I am well pleased with the treatment.

Your esteemed friend and patient, R. R. No. 5 ALBA HURST.

Our Medical Director will be in Rushville, at the Hotel Sealan on Wednesday, May 19th.

from 9 A. M. to 8 P. M., one day only, and every 28 days thereafter. He has been coming here every month for a long time.

In case it is impossible for you to call or you do not live in this district, you should write a letter or card or use the coupon below. Do it now.

The Indiana Catarrh Institute, 1436 North Illinois St. Indianapolis, Indiana.

Dear Sirs: Please mail to me, in plain wrapper, full particulars about your methods, local references to cured people and your TRIAL REFUND GUARANTEE PROPOSITION.

## The Car Problem is "Gas"

HOW

# CHALMERS

SOLVES IT

**G**ASOLINE is steadily going down in grade. Motor car engineers are much concerned. Some have found a remedy by accepting the Chalmers principle of Hot Spot and Ram's-horn.

For this principle has supplied the answer to the problem of "gas."

Hot Spot transforms the raw, inferior "gas" into a fine fuel, simply by "breaking up" the particles into a "cloud."

Ram's-horn, minus abrupt sharp corners, short in length and ingeniously designed, makes the distance "gas" travels from Hot Spot to each cylinder equal.

At a velocity estimated at 100

miles an hour the "gas cloud" is rushed through Ram's-horn and the results are marked:

Quick starting  
Power  
Smooth action  
Spark plugs seldom foul  
Absence of engine troubles such as burned bearings and scored cylinders.

The sum of results from Hot Spot and Ram's-horn looms large in your mind once you become a Chalmers owner and you, too, will say Chalmers is one of the few great cars of the world.

## INDIANA STREAMS CAN REDUCE H. C. I.

440 Square Miles of Water Area in This State Could be Made to Produce More Fish

### SPORTSMEN ARE URGED TO ACT

State Department Will Stop Destruction of Game Fish During The Nesting Period

Indianapolis, Ind. May 13—Pointing out that Indiana has a water area of 440 square miles which could easily produce annually millions of fish if scientifically cultivated and consequently help relieve the H. C. I. of L. George M. Mannfeld, Superintendent of Fish and Game under The Department of Conservation, has addressed a letter to 100 fish and game protective associations in the state, calling attention to the spawning period of fishes now here. "This period is one of serious consequence," says Mr. Mannfeld, "and much of the fish crop of Hoosier waters depends on the success of this season when stocking of streams is accomplished through natural channels." The letter appeals to all true sportsmen to report the fish pirate and dynamiter and urges cooperation in protection of streams that are planted with fingerlings from the state hatcheries.

"During the months of May and June," the letter says, "we may expect to see thousands of persons engaged in destroying black bass and other game fish during the nesting period. Seines, spears, dynamite and high-powered rifles will be employed by the fish pirates, and quite often a self-styled angler will be found busily engaged in trying to snare a bass off the nest, giving little thought to the fact that every nest destroyed means a loss of thousands of young which if protected, would grow and produce food for all.

"The lakes and streams of the state have for years been annually robbed in this manner, and the natural reproduction in our waters interfered with. In consequence the number of fish to be caught will not increase but is more apt to decrease. This solution is relieved somewhat by the restocking of public waters from the hatcheries operated by the fish and game division of The Department of Conservation, but the loss and other species of fish destroyed by sheer waste and recklessness far exceeds the number it is possible to rear.

"The Department is determined to break up this practice. In these days of increasing population future fishing depends wholly upon wise and appreciative citizenship. During the spawning period, therefore, it will be your duty to assist in bettering conditions." The letter calls attention to the state hatcheries where the propagation of fish is about to begin, and extends an invitation to every angler to visit one or all of the hatcheries in order to obtain an idea of how this work is carried on. The division is operated entirely from the money obtained from fishing licenses and the state does not appropriate a dollar toward its maintenance.

## For Particular Motorists

The more you know about tires, the more you'll appreciate Brunswicks. For they are built to the highest standards—perfectly balanced at every point.

In addition, they are backed by the reputation of the House of Brunswick—75 years in the making.

## BRUNSWICK TIRES

Yes, Brunswick Tires will cost you a little more—at first. But you'll find them the most economical from the standpoint of mileage and service.

You can do no better than select Brunswicks. We doubt if you can do as well.

## Urbach

Indianapolis, Ind.

Miss Ruby Rogers spent Sunday with friends in Greensburg.

### Arlington and Vicinity

Oil Swain is remodeling his house in Sumner.

Mrs. Mary Ennis and Mrs. D. M. Pressnal made a business trip to Manila Friday and were entertained for dinner at the home of Oscar Burns near Sumner.

Birtie Riggsbee who has been confined to his bed for the past two weeks, is improving.

Melvina Moore has remodeled her home in Sumner.

Mr. and Mrs. Ed Cooley of Connersville visited Mr. and Mrs. Cris Cline Sunday afternoon.

Dr. and Mrs. Westhafer of Newcastle visited the Rev. and Mrs. F. M. Westhafer the first of the week.

Mrs. F. M. Westhafer suffered an attack of heart trouble Sunday night. She is improving.

Earl Riggsbee of near Wabash made a business trip to Arlington Tuesday.

### EXCHANGE

The Ladies of the First Baptist church will hold an exchange Saturday May 15th at Week's Meat Market.

### ASSOCIATION AUTHORIZED

Washington, May 13—A bill to authorize associations of producers of agricultural products has been reported out of the House Judiciary committee without amendment and is now before the House for consideration. This bill, if it becomes a law, will permit all persons engaged in the production of agricultural products as farmers, planters, ranchmen, dairymen or fruit growers to act together in associations in collectively processing.

## SQUEEZED TO DEATH

When the body begins to stiffen and movement becomes painful it is usually an indication that the kidneys are out of order. Keep these organs healthy by taking

**GOLD MEDAL**  
**WADENOL**  
CAPSULES

The world's standard remedy for kidney, liver, bladder and uric acid troubles. Famous since 1895. Take regularly and keep in good health. In three sizes, all druggists. Guaranteed as represented. Look for the name Gold Medal on every box and accept no imitations.

# Classified Advertisement

Telephone Your Ads 2111

This page is read eagerly by the entire county daily. It is invaluable for merchants, farmers, professional men and all progressive people.

**OUR RATES**—All advertisements, except display are charged for at the rate of one-half cent per word for each insertion. ## HOME MADE RECIPE CATARRH AND COLDS

Nonexpensive—Cut This Out

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Ask your druggist for three quarters of an ounce of Mentholized Aroline and pour it into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and snuff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat so clean and healthy that germs of flu or any other germs will have a hard time gaining a foothold.

is the dentrifice that contains the properties recommended as ideal by United States Army dental surgeons

## WAS NERVOUS AND RUN DOWN

RESTORED TO NORMAL HEALTH BY BIO-FEREN

"I feel I owe you people a world of gratitude for the benefit I have received in using your wonderful remedy—Bio-feren Tablets, which have completely restored me to normal conditions," says Joseph E. Webb of Muncie, Indiana.

Bio-feren is without doubt the grandest and quickest remedy for nervous, run down, weak, anemic men and women ever offered direct through the druggists and is not at all expensive.

Take two after each meal and one at bed time, and after seven days take one after each meal and one at bed time until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if you are not in better health—if you do not feel ambitious, more vigorous and keen minded, yes, twice as much as you did before, the druggist who sold you the tablets will gladly hand you back just what you paid for them.

All druggists in this city and vicinity have a supply on hand, or can easily get it for you.

Seven a day for seven days—Wonderful results.

Don't Burn Good Fuel in a Poor Stove.

## TAKE

## PEPSINCO

It's a useless waste of good fuel and needless extravagance to try to burn it in a poor stove. It is absolutely wrong to expect good food to supply energy, vitality, health and happiness, if your stomach won't absorb and assimilate it. If you cannot eat with enjoyment; if your food does you no good; if food distresses, rather than benefits, then you have indigestion or dyspepsia. The best remedy to use is PEP SINCO.

Ask your druggist—he sells and recommends Pepsinco.

## Finish the Job Right

**SOMETIMES** we are inclined to let a job go half done—or leave it when it is almost finished. It's poor business. Finish any job you start—and finish it right. Take the matter of harrowing:

A field that has been gone over with a disk harrow and smoothed with a peg-tooth harrow usually presents a pretty good seed bed under favorable conditions. But all too often the seed bed isn't as good as it ought to be in spite of diligent disking and harrowing. Very frequently there are hard clods that are dug up by the disking which lie scattered about the field like stars in a clear, moonless sky. Each one of these lumps is a crop killer—it is taking up good air and moisture without offering any return therefor to you.

Finish the job right by crushing these hard lumps with a **Dunham Culti-Packer**. Not only is this implement very valuable in completing the preparation of a good seed bed by pulverizing the hard lumps and clods dug up by harrowing, but it also prevents winter killing to a great extent. When the culti-packer is used early in the spring, it packs the soil that has been humped up by the frost, leaving wheat roots exposed to the air, thereby "replanting" this grain by packing the soil around the roots.

Come in and have a look at one of these culti-packers. We sell them.

## WHEAT, RYE CROPS SHOW A DECREASE

Acreage of Wheat is One of Smallest Ever Left For Harvest and Conditions is Lowest in Years

**DAMAGED BY HESSIAN FLY**

Co-operative Crop Reporting Service For Indiana Issues The Monthly Report Today

The condition of wheat and rye crops in the state and the United States show a heavy decrease compared with last year, according to the monthly report of the co-operative crop reporting service for Indiana, issued today. The acreage of wheat is one of the smallest ever left for harvest and the condition is the lowest in many years. The hay acreage remains about the same as last year and live stock mortality and condition is about as usual. The report follows:

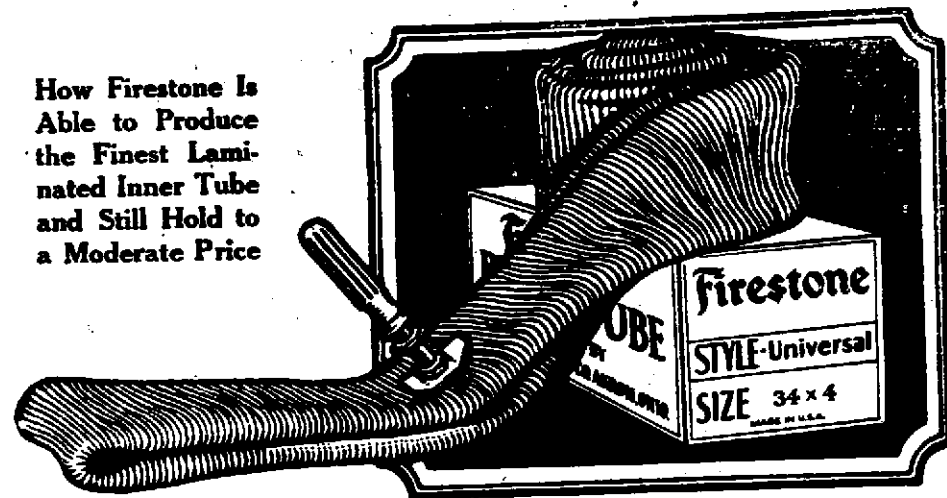

Of the 1,960,000 acres of wheat seeded last fall in Indiana approximately 255,000 acres have been abandoned. This is considerably greater than usual on such a small acreage and is due principally to the ravages of the Hessian fly. A severe winter and ice storms this spring also did considerable damage. The condition of the remaining acreage was 65 percent of normal on May 1, and indicates a crop of 21,611,000 bushels. For the United States the amount left for harvest is 34,165,000 acres, which shows an abandonment of 11.9 percent. The condition figures is 79.1 percent of normal and indicates a total production of 484,647,000 bushels compared with 731,639,000 bushels last year. April weather conditions were almost ideal for bringing out the crop, in all sections of the country. The spring crop of Hessian fly has not yet made its appearance and the harvest will depend very materially on the damage that will be done by this pest. Indications now point to a small acreage of spring wheat in the northwest.

The rye acreage for grain this year amounts to 342,000 acres compared with 380,000 acres last year. The condition May 1 was 83 percent of normal compared with 80 percent April 1 and 98 percent on May 1, last year. The condition figures for May 1 indicate a total production of 4,882,000 bushels for Indiana. Acreage figures for the United States are 77.4 percent of last year and amount to 5,467,000 acres. The condition is 85.1 percent of normal from which a total production of 79,789,000 bushels is forecasted. Last year's production amounted to 88,478,000 bushels.

The tame hay acreage for Indiana remains practically the same as last year, 2,200,000 acres, but wild hay shows a decrease of about 4,000 acres leaving 50,000 acres for harvest. The condition May 1 was 87 percent of normal compared with 93 percent on the same date last year. This figure indicates a crop of 2,925,000 tons. There is only 13 percent, approximately 400,000 tons, of last year's crop still on farms. The acreage of tame hay for the United States is 99.7 percent of last year and for wild hay it is 99.2 percent.

# The Tube

How Firestone Is Able to Produce the Finest Laminated Inner Tube and Still Hold to a Moderate Price

**Firestone Man Power:** Firestone has gathered together a remarkable body of workers, 17,000 strong—many of them stockholders in the Company. Men financially interested in the success of their product do better work.

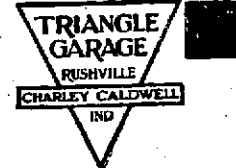

**Firestone Buying Power:** Firestone has established purchasing headquarters at Singapore in the Straits Settlement where 85% of the world's rubber is produced. Thus Firestone gets first choice

of the raw product at quantity prices. And this saving is turned back to car owners.

**Firestone Selling Power:** Firestone's immense production requires a widespread distribution system. Sixty-five branches and 46,000 dealers throughout the United States selling Firestone Tubes assure a fast-moving product, which means fresh stock at all times—most miles per dollar in tubes as well as tires.

# Firestone

We recommend and have in stock Firestone Tires — Most miles per dollar.

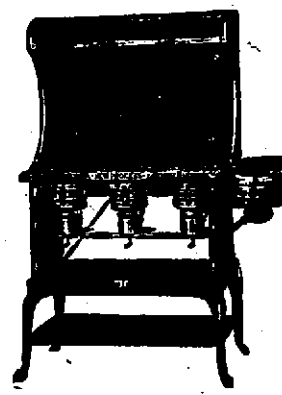

The condition is 89.4 percent of normal and indicates a total production of 137,831,000 tons. Of last year's crop for the United States there is still on farms 10.5 percent or 11,377,000 tons.

Up to May 1 only 34 percent of the spring plowing and planting had been done in Indiana. On the same date last year 71 percent of the plowing and 53 percent of the planting had been completed. For the United States last year 71 percent of plowing and 50.2 percent of the sowing is completed.
